About

I'm a Information Technology engineer student at Arcada, University of Applied Sciences, with a passion for problem solving, design and web development.

Since the beginning of my studies I knew that I wanted to design and develop modern software and solutions. This has now driven me towards web development, with my main focus on JavaScript.

Experience

Present **Junior FullStack Developer**
CGI
04/2020 - Present
I started at CGI with the Future Talent Junior program.

05/2019 **Junior IT Specialist**
Nordea Bank Oyj - Academic Work Consultant
05/2019 - 04/2020

At Nordea I worked as an external consultant, through Academic Work, as a member of the Windows 10 Rollout team. During this time they recognised my talent not only as a team member, but as a team leader. I shortly became the team leader of the rollout team and managed our day to day work, on top of specialising in the Windows OS and end user services.

05/2018 **IT Summer Trainee**
Kesko Oyj
05/2018 - 09/2018

At Kesko I worked at the IT-department, in a support team called KDE (Kesko Development Environment). My main role was to maintain and administrate all the tools used by Kesko IT. These tools included LastPass, GitHub, Jira, Confluence, Heroku, Travis, BI databoards, and many more, with the main focus being Jira and Confluence. I also worked closly with the development teams at Kesko and helped them with planing their projects.

03/2015 **Waiter**
Restaurant Maxill
03/2015 - 05/2016
A la Carté waitering.

03/2014 **Waiter**
